

JACOB BERNARD

FRONTEND DEVELOPER | UI DESIGNER

github.com/jacobbernard68-ux | linkedin.com/in/jacobbernard159

PROFESSIONAL SUMMARY

UI-focused frontend developer and designer backed by 16 years of enterprise IT experience. Builds responsive, accessible interfaces with **React, JavaScript, HTML, CSS, and Figma**, combining component-based development with strong visual hierarchy, usability, and systems thinking. Brings hands-on web platform experience and a design-focused approach to modern frontend development.

SKILLS

React	JavaScript ES6+	HTML5	CSS3
Figma	Responsive Design	Accessibility / WCAG	Context API
Git / GitHub	CSS Grid	Flexbox	Chrome DevTools

Additional: JSX, state management, DOM manipulation, Fetch API, routing, hooks, semantic HTML, Linux, Python, enterprise IT systems

SELECTED FRONTEND & UI PROJECTS

The Bean's Place

React Commerce Experience | React, JSX, Context API, CSS

- Built a responsive specialty-coffee storefront using reusable React components and component-based interface architecture.
- Implemented shared cart state with React Context API to coordinate product and cart behavior across the application.
- Developed a consistent product-discovery interface for desktop and mobile layouts.

Vintage Barbershop

Responsive Service Website | HTML, CSS, JavaScript

- Developed a responsive service website using semantic HTML, CSS Grid, Flexbox, and JavaScript.
- Built interactive service details, mobile navigation, and a client-side booking calendar.
- Structured the interface around clear information hierarchy and responsive behavior.

Portfolio & UI Case Studies

Frontend Development + Interface Design | React, Figma

- Designed and developed a responsive portfolio integrating frontend projects with detailed UI case studies.
- Created reusable interface patterns centered on visual hierarchy, consistency, and guided content exploration.
- Used Figma and frontend implementation together to translate interface concepts into functional web experiences.

PROFESSIONAL EXPERIENCE

Defense Intelligence Agency

Data Systems & IT Operations Manager | May 2021 - Jul 2026

- Supported high-availability enterprise systems, coordinated multidisciplinary technical work, and improved technical workflows.

1st Information Operations Battalion

Senior IT Specialist | Oct 2018 - May 2021

- Supported Linux-based operational systems, maintained platform reliability, and developed Python automation scripts.

21st Theater Sustainment Command

IT Specialist, Web Platforms | Aug 2015 - Oct 2018

- Developed command-level internal web platforms and improved navigation and information architecture.
- Customized HTML interface templates adopted at higher organizational levels.

Earlier Enterprise IT Experience

IT Specialist / IT Support Technician | Mar 2011 - Aug 2015

- Developed internal websites, supported enterprise IT infrastructure, and provided hardware, software, and end-user support.
